NEW! Submission System: abstract publication

PROJECT ACRONYM/SHORT TITLE

Maximum 50 characters

NGBH

PROJECT ABSTRACT

Short presentation of project content and goals. The abstract should make clear the project's goals.

While strategic and applied urban research are both focused on producing knowledge, "urban innovation and implementation" takes things one step further and promotes the actual creation or advancement towards new policies, practices, services, products or processes – such as integrated systems, tools, services and data – in such a manner that the first impact already takes place during the project phase. Initiatives should therefore have a focus on experimentation, testing, implementation, evaluating and disseminating results, and are always carried out in close collaboration with stakeholders. Policies, practices, processes, services or products being developed could be of commercial value, but equally welcome is innovation directed at public governance, management and operation. Urban innovation should be carried out in close collaboration with stakeholders.

You have 3130 characters remaining from the maximum of 4000

Please publish my abstract and contact information for the widening procedure
